

AMENDMENTS TO THE CLAIMS

The claims in this listing will replace all prior versions, and listings, of claims in the application.

LISTING OF CLAIMS

1. (Canceled)

2. (Currently Amended) A thumb pick for a guitar of claim 1, comprising:
a pick body, comprising a base end portion configured to contact a thumb,
and a protrusion portion integrally extending from the base end portion and
configured for picking strings;

a belt body, separate from the pick body, which fixes the pick body to the
thumb, wherein two end portions of the belt body adjustably connect to the pick
body;

~~further comprising~~ a cut-out portion extending from the protrusion portion
to the base end portion~~[[.]]~~; and

a tongue provided inside the cut-out portion, an end portion of the belt
body detachably connecting to the tongue.

3. (Currently Amended) A thumb pick for a guitar of claim 1, comprising:
a pick body, comprising a base end portion configured to contact a thumb,
and a protrusion portion integrally extending from the base end portion and
configured for picking strings;

a belt body, separate from the pick body, which fixes the pick body to the thumb, wherein two end portions of the belt body adjustably connect to the pick body;

~~further comprising~~ a curved portion formed at an end of the base portion and configured to contact a side of the thumb[[.]]; and

an engaging portion protruding from the curved portion, an end portion of the belt body adjustably connecting to the engaging portion.

4. (Previously Presented) A thumb pick for a guitar of claim 2, further comprising a curved portion formed at an end of the base portion and configured to contact a side of the thumb, and an engaging portion protruding from the curved portion, an end portion of the belt body adjustably connecting to the engaging portion.

5. (Previously Presented) A thumb pick for a guitar of claim 3, wherein an end portion of the belt body comprises a plurality of slits configured to engage the engaging portion.

6. (Previously Presented) A thumb pick for a guitar of claim 4, wherein an end portion of the belt body comprises a plurality of slits configured to engage the engaging portion.

7-8. (Canceled).

9. (Currently Amended) A thumb pick for a guitar, comprising:
a pick body, comprising a base end portion configured for contacting a thumb;
a belt body which fixes the pick body to the thumb; and
a hook, protruding from one end of the base end portion, that detachably connects the belt body to the pick body, wherein an end portion of the belt body comprises a plurality of slits configured to engage the hook.

10. (Previously Presented) A thumb pick for a guitar of claim 9, wherein the belt body is formed separately from the pick body.

11. (Canceled)
